

Ten Tips to Prevent Home Fires

1. Never smoke in bed.
2. Never smoke when using oxygen!
3. Never leave smoking materials unattended.
4. Use "safety ashtrays" with wide lips.
5. Empty all ashtrays into the toilet or a metal container before napping or going to bed.
6. Every month, be sure your smoke detector is working.
7. Plan your emergency escape in case of fire.
8. Don't use your stove to heat your home.
9. Get rid of exposed, cut or shredded or damaged wiring of any kind.
10. Install Ground Fault Circuit Interrupters in your home.
